Still discussing funding with the Federal Government; • Closure of Caloundra airport will not affect the Sunshine Coast Airport – general aviation not within the plan for Sunshine Coast Airport. • Canals/Lake Handover. A number of issues still remain to be sorted out with Lend Lease before council will accept handover. • Anchorage Circuit boat ramp – bollards will be going up shortly to stop parking on the lawns. • Apex have been conducting activities on public land – they have been told unless they have a permit these activities need to stop. • Ocean Drive/DL Way work – The bus shelter is on order • Gym Equipment in Twin Waters Drive Park - \$50,000 in the budget for 4 fitness stations along the lake edge. • Cycle pathway on bridge – asked engineers to go back and have another look at this. • Lakeview Drive – A master plan is really not necessary for the scale of a job like this - \$30,000 will implement the elements requested. • Bollard and low level light for the foot bridge has gone into the budget; • Kayak launch into the river from the weir is also in the budget • Nojoor Road boat ramp – the State and local governments are trying to co-operate. May need to be a land swap. The funds are still there for this project, where land is involved these things sometimes take time. • Kerb side cleanup – we will have one every two years – our first one will be in May – see website for details. • Next 2 legs of the bike path to the bridge – Department of Main Roads have fast-tracked. This is a state government project. • Will investigate lights over roundabout at TW – haven't been switched back on since roadworks
